

Band Plan for IMT Services

International Mobile Telecommunication (IMT) encompasses both IMT-2000 and IMT-Advanced collectively based on Resolution ITU-R 56.

Content

1	Management Summary	4
1.1	Bands identified for IMT deployments and drivers	4
1.2	Policy objectives for IMT mobile services	4
1.3	Internal discussion re: Broadband Planning	5
1.4	Inventory with the current usage and licenses of spectrum in The Gambia for IMT bands	5
1.5	International recommendations and spectrum distribution of IMT bands.....	6
1.6	Recommendations regarding the allocation for bands identified to IMT service	7
1.7	Implementation steps	9
2	Introduction.....	11
3	Policy objectives for IMT Mobile Services.....	15
4	Internal Discussion re: Broadband Planning	17
5	Inventory of spectrum assingment in The Gambia and listing of licences.....	19
5.1	Frequency assignment for 450-470 MHz band	19
5.2	Frequency assignment for 698-960 MHz band	20
5.3	Frequency assignment for 1,710-2,200 MHz band	23
5.4	Frequency assignment for 2,300-2,400 MHz band	24
5.5	Frequency assignment for 2,500-2,690 MHz band	25
3.6	Frequency assignment for 3400-3600 MHz band	27
5.6	Spectrum Authorization	28
5.7	Observations about the assignments of spectrum identified for IMT in The Gambia.....	31
5.7.1	Observations regarding usage of 450-470 MHz band in The Gambia	31
5.7.2	Observations regarding usage of 698-960 MHz band in The Gambia	31
5.7.3	Observations regarding usage of 1710-2200 MHz band in The Gambia ...	32
5.7.4	Observations regarding usage of 2,300-2,400 MHz band in The Gambia .	32
5.7.5	Observations regarding usage of 2,500-2,690 MHz band in The Gambia .	33
5.7.6	Observations regarding usage of 3,400-3,600 MHz band in The Gambia .	33
6	International recommendations and spectrum distribution of IMT bands around the world	34
6.1	ITU Recommendations for IMT	35
6.1.1	Frequency arrangement for 450-470 MHz band.....	36
6.1.2	Frequency arrangement for 698-960 MHz band.....	36

6.1.3	Frequency arrangement for 1710-2200 MHz band.....	37
6.1.4	Frequency arrangement for 2300-2400 MHz band.....	37
6.1.5	Frequency arrangement for 2,500-2,690 MHz band.....	37
6.1.6	Frequency arrangement for 3,400-3,600 MHz band.....	38
6.2	IMT band specifications from standarization organizations.....	38
6.2.1	3GPP	38
6.2.2	3GPP2	42
6.2.3	IEEE	43
7	Recommendations.....	44
7.1	Recommendation for 450-470 MHz band.....	44
7.2	Recommendation for 698-960 MHz band.....	44
7.3	Recommendation for 1710-2025 MHz band	47
7.4	Recommendation for 2110-2200 MHz band	47
7.5	Recommendation for 2300-2400 MHz band	48
7.6	Recommendation for 2500-2690 MHz band	48
7.7	Recommendation for 3400-3600 MHz band	49
7.8	Recommendations regarding availability of spectrum for IMT services	49
